

APC Charge for Microsoft Surface Hub 2

APC™ Charge Mobile Battery is a lithium-ion battery system designed to power Microsoft Surface Hub 2 on-the-go for over 100 minutes, so you stay connected regardless of the location.

Unplug, stay connected and never lose creative momentum as you move beyond the traditional meeting room, making any space a teamwork space.

Battery Life: Over 100 Minutes

Nominal output voltage: 100/120/230Vac

Part number: CSH2

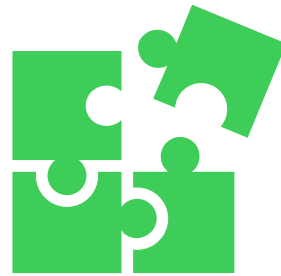

Designed For Mobility

APC, Microsoft, and Steelcase design in partnership to enable true team mobility.

Long Battery Life

Over 100 minutes of power from the moment you unplug the Microsoft Surface Hub 2.

Easy to Install

Place, secure, and connect: battery installation is that simple.

Life Is On

by Schneider Electric

Additional Features

Recharge Anytime

It only takes 90 minutes to fully recharge.

Protect & Power

During unexpected power anomalies, APC Charge protects and supplies uninterruptible power to Surface Hub 2.

Thinking Beyond the Battery

Space Saver

Installed in Steelcase Roam's tray, APC Charge saves space for your accessories.

Concealed Connections

Cable and connectors are cleverly concealed.

Integrated By Design

APC Charge blends with Surface Hub 2 and Roam, making the battery almost invisible.

Designed in collaboration with Microsoft and Steelcase

APC Charge Mobile Battery was developed to power Microsoft Surface Hub 2 and seamlessly integrate with Steelcase Roam™ Mobile Stand.

Microsoft, Steelcase and APC by Schneider Electric bring you a truly mobile experience for teamwork and remote collaboration.

Life Is On
